

### Wi-Tune WR-01 Advanced Wireless Chromatic

The leader in tuner technology, Korg is once again on the forefront with the all new Wi-Tune, the wireless tuner solution. Say goodbye to fumbling around and switching cables live. The Korg Wireless Tuning System™ changes everything, providing an always-on tuning system that won't get in the way of your playing.

Simply attach the clip-on transmitter module to your instrument and turn it on. The Wi-Tune will pick up the signal and show your current tuning in the large, backlit display. The Wi-Tune can also be used as a traditional tuner using the built-in microphone. In addition to tuning visually, the Wi-Tune can generate reference tones for tuning by ear. The Wi-Tune features a folding Advanced features, reliability, and accuracy have made Korg tuners the worldwide favorite

## Wi-Tune WR-01 SPECIFICATIONS

**Buttons/Switches:** STAND BY/ON, BACK LIGHT, SOUND, SOUND UP, SOUND DOWN, CALIB UP, CALIB DOWN.

**Input/Output/Connector:** 2.4GHz RF communication, Built in Condenser Microphone, Dynamic Speaker, ID configuration connector

**Display:** Main LCD screen, 3 points LED guide

**Scale:** 12-note equal

**Detection Range:** A0 (27.50Hz) - C8 (4186.01Hz) w/Sine wave

**Reference Sound :** C4 (261.63Hz) - C5 (523.25Hz) : 1 Octave

**Tuning Modes:** WIRELESS PITCH DETECTION MODE (AUTO), MIC INPUT MODE (AUTO),SOUND OUT (MANUAL)

**Calibration Range:** A4=410Hz-480Hz (1Hz step)

**Detection Accuracy:** within +/- 1 cent

**Sound Accuracy:** within +/- 1.5 cent

**Additional Function:** Back Light, Stand-cover

**Display Modes:** Meter Display

**Speaker:** Dynamic Speaker

**Power Supply:** (WR-01) Two AA Alkaline Batteries (3V)

(WR-TX) One CR2032 (3V)

Including Items : WR-TX (transmitter), One CR2032 for checking WR-TX operation, Two AA Alkaline batteries for checking WR-01 operation, Owner's manual
